

Town of Lamont COVID-19 Update

As we approach the weekend, we have also arrived at the Phase 1 of the Alberta Relaunch strategy. Phase 1 includes the reopening of many businesses within our community. We would like to remind residents that the decision to reopen at this time is up to each business, and they may do so, as long as they follow Provincial guidelines. Each business will have to determine how and when they can safely reopen. The guidelines and conditions for reopening are available at www.alberta.ca/biz-connect.aspx.

It is still as important today as ever, that everyone stay safe and be cautious, still observing public health orders which include maintaining physical distancing of 6 feet (2 meters) and washing your hands frequently. Entering Phase 2 and Phase 3, to see a more wide-spread economic relaunch, is dependent on our mutual care and concern for one another and ourselves.

Each day the Town of Lamont receives fulsome updates from the Province on reopening strategies, restrictions (whether new or ongoing), and tools to help guide us through these exceptional times. We want to share that we must carefully consider each and every aspect of relaunch to provide the utmost safety and security to our community, residents and workers.

At this time playgrounds, ball diamonds, outdoor exercise equipment and municipal buildings all remain closed. Team and league play/organized play is not permitted as per Alberta Health guidelines. Additionally, please remember that Garage Sales, Yard Sales and Auctions are also not permitted in the Town of Lamont.

We will have more information to share with the public as we plan forward in the coming weeks.
