**FOR IMMEDIATE RELEASE**

**DATE: June 23, 2020**

**MEDIA RELEASE  
Incident Command Post**

On April 6, 2020, at 4:00pm, the Town of Lamont activated an Incident Command Post in response to the COVID-19 pandemic. This activation ensured that additional supports would be available to the Town until such a time as the Town was able to stand down on the COVID-19 response.

Throughout this rapidly changing and challenging situation, the Town of Lamont has continued to take direction and advice from Alberta Health Services and the Government of Alberta. On June 12, 2020, the Government of Alberta announced that the Province would move into Stage 2 of the Relaunch Strategy, which sees more businesses, services and amenities planning for safe reopening.

At this time, Town of Lamont has decided to stand down the Incident Command Post effective Tuesday, June 23, 2020.
